

MODULAR CLEAN ROOM OPERATION THEATER – HOSPITAL

Actual Images for Our Work

These theaters feature:

- ****Pre-fabricated, Modular Design:****

Components are manufactured off-site and assembled on-site, ensuring precision and quick installation.

- ****Advanced Filtration Systems:****

High-efficiency particulate air (HEPA) filters and laminar airflow systems maintain air quality, reducing infection risks.

- ****Hygienic Surfaces:****

Use of materials like stainless steel and antimicrobial coatings ensures easy cleaning and maintenance.

- ****Integrated Equipment:****

Built-in medical gas systems, lighting, and other essential equipment enhance functionality and efficiency.

- ****Compliance with Standards:****

Adherence to international standards like ISO and GMP ensures a high level of safety and performance.

Semi-Modular Operation Theater

A Semi-Modular Operation Theater combines elements of modular and traditional construction, offering flexibility and cost-efficiency. Key features include:

09898622773

B - 5 "Kailas", B / h : A G Teachers ,
Commerce Cross Road , Iswarbhuwan,
Navrangpura ; 380009 , Gujarat.

- ****Partial Modular Construction:****

Some components are pre-fabricated, while others are built on-site, allowing customization based on specific requirements.

- ****Enhanced Air Quality:****

Utilizes HEPA filters and efficient ventilation systems to maintain a clean environment.

- ****Cost-Effective:****

More affordable than fully modular systems, making it a practical option for many healthcare facilities.

- ****Customizable Design:****

Offers a balance between pre-fabricated modules and traditional building methods, providing adaptability for different surgical needs.

- ****Compliance and Safety:****

Meets essential health and safety standards, ensuring a safe and effective surgical environment.
